

We currently only have 2 Christian radio stations to choose from in our area. KLOVE is not only inspirational it provides a good balance of world news and information, prayer support, and it is safe for my whole family to listen to. To allow KLOVE to be displaced by LPFM broadcasting would be a terrible loss not only for my family, but many other families in our area. The service KLOVE provides as a family oriented Christian radio station is in the best interest of the public as having just two stations to choose from and losing one would be discouraging. There are many choices of other types of music stations, but taking away one of two choices in this venue seems unthinkable at best. Please reconsider.
